15) VB Program for Arithmetic Operations
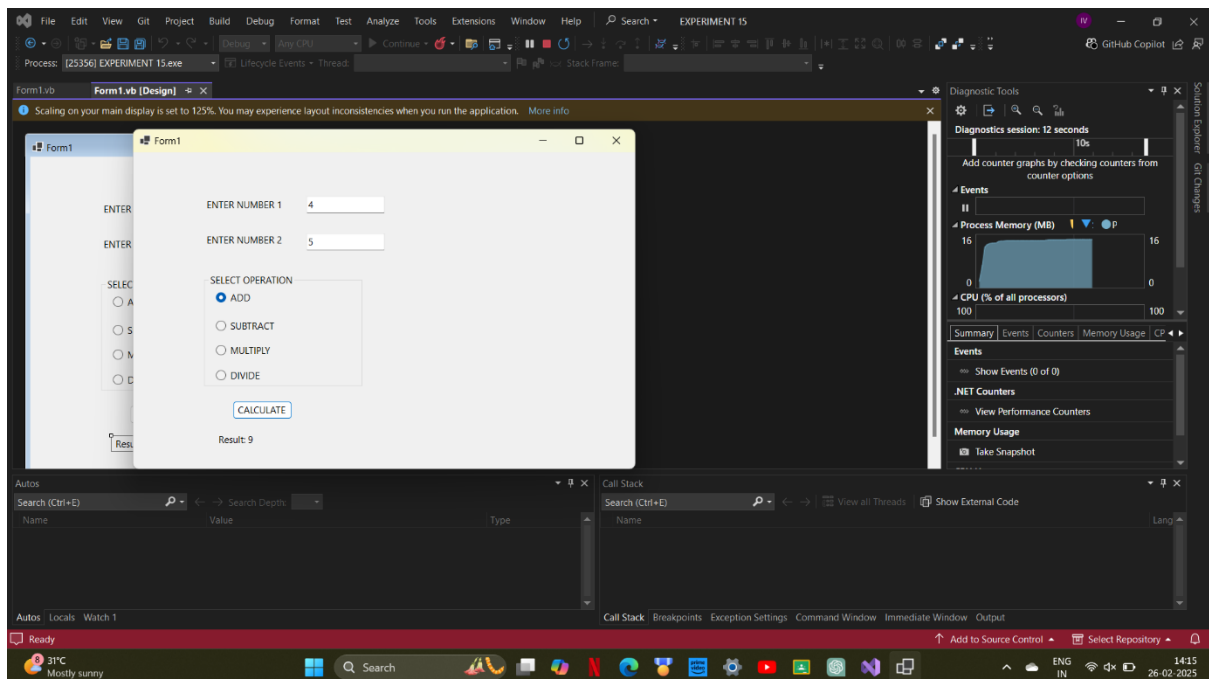

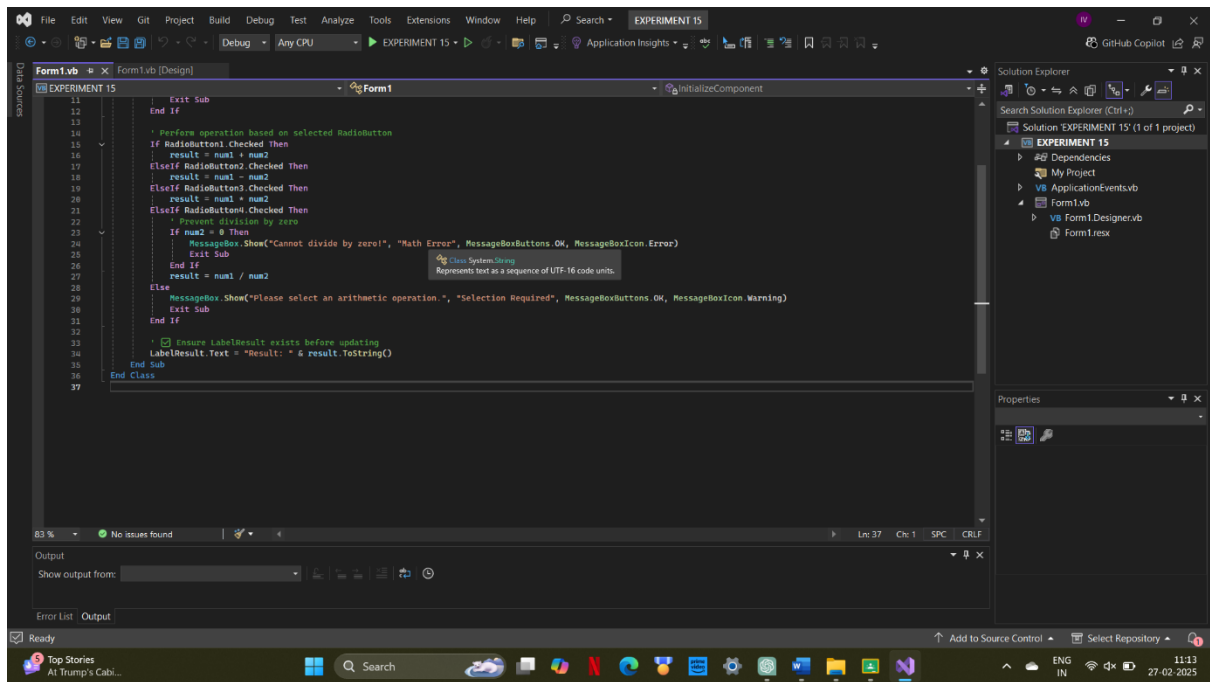

Aim:

To develop a Visual Basic program that performs basic arithmetic operations (Addition, Subtraction, Multiplication, and Division) based on user input and displays the result.

Procedure:

1. Create a VB project.

2. Add:

   o Two **Textboxes** (Text1, Text2) for numbers.

   o Four **Command Buttons** for **Add**, **Subtract**, **Multiply**, and **Divide**.

   o A **Label** (Label1) to display the result.

3. Write the following code for each operation:

OUTPUT:

RESULT:

When numbers are entered and an operation button is clicked, the result is displayed in the label.
